Aura

Key Features

- Faster pack size and film changeover
- Less operator intervention when running the machine
- Chainless jaw mechanism means less serviceable parts and higher jaw compression for greater seal integrity
- Guarding style allows greater access to the jaw mechanism, transport and backseal areas
- Allen Bradley ControlLogix control system with PanelView 1000 touch screen operator interface with choice of languages and access restriction feature
- Simple menu-based rapid storage and retrieval function for 50 product recipes
- Full synchronisation for printers, labellers and feed systems
- Fully interlocked guarding system
- Film reel runout device
- Quick release, drop-on film reel air mandrel
- Full configuration for polyethylene and/or heatseal materials
